SEPTIMATECH EASY ADJUST RAILS®

Septimatech Easy Adjust Rails® are a low cost - high value economical solution with a quick ROI and a low Total Cost of Ownership. Conveyor guide rail changeovers are repeatable, fast and easy. Install **Septimatech Easy Adjust Rails®** on your new or existing conveyor to improve changeover efficiency and create greater line flexibility to infinitely adjust guide rails for current and future product introductions.

PRODUCT FEATURES

APPLICATIONS

- ▶ Air conveyor, flat top, table top,
- ▶ Empty or filled bottles
- ▶ Empty or filled cases
- ▶ New conveyor or existing conveyor

QUANTITATIVE BENEFITS

- ▶ Affordable low capital investment, less than one-year ROI, based upon average of 3 changeovers per week at 30 minutes per change over
- ▶ Accurate adjustment - repeatably adjust straights and curves accurately to plus or minus 1 mm
- ▶ Change over times reduced - Easy Rails can adjust 2" in width in 10 seconds up to 80 feet in length.

ONE-TIME CALIBRATION OF SYSTEM - No springs, seals or pressures to be maintained

CAUSTIC ENVIRONMENT - Engineered plastic components inert to most caustic solutions, stainless steel hardware upgradeable to 316 stainless steel

RETROFIT EXISTING CONVEYOR - Engineered to retrofit to any existing or new conveyor systems, interchangeable when line configuration needs to change

CLEAN SIMPLE DESIGN - Curved and angled surfaces prevent pooling of product and washdown liquids

HYGIENIC - Upgrade option is available to suit pharmaceutical applications

AUTOMATED OR MANUAL ADJUST - Manual adjust with dial indicator setting or option to upgrade to pre-programmed positions

ECONOMICAL - Low cost high value solution

SUSTAINABLE - No compressed air resources

MAINTENANCE FREE - No seals, springs, wires or supply lines subject to wear, damage or leakage

SMALL FOOT PRINT AND LIGHT WEIGHT - Adapts to tight radius curves, small to large size conveyor configuration, durable to handle boxes or any size container

SECURE GUIDE RAIL POSITIONING - guide rails maintain position when subject to conveyor back pressure

CORNER & SIDE TRANSFERS - Patented guide rail design provides low friction, smooth, no marking container travel
